

Coalition for Women and Children

Dear _____

During this budget crisis, instead of further subsidizing the lucrative abortion industry with \$33 million of our tax dollars, California could pay for 900 teachers salaries, or keep 48 state parks open, and provide healthcare for our citizens.

If abortion is a PRIVATE decision, made between a woman and her doctor, why should the PUBLIC be forced to participate in this tragic choice with tax dollars? **Abortion Hurts Women!** I demand that you **Eliminate Abortion Funding** from the California state budget NOW!
